

WHERE DO YOUR ENTERPRISE PEERS SIT ON DISASTER RECOVERY PLANNING?

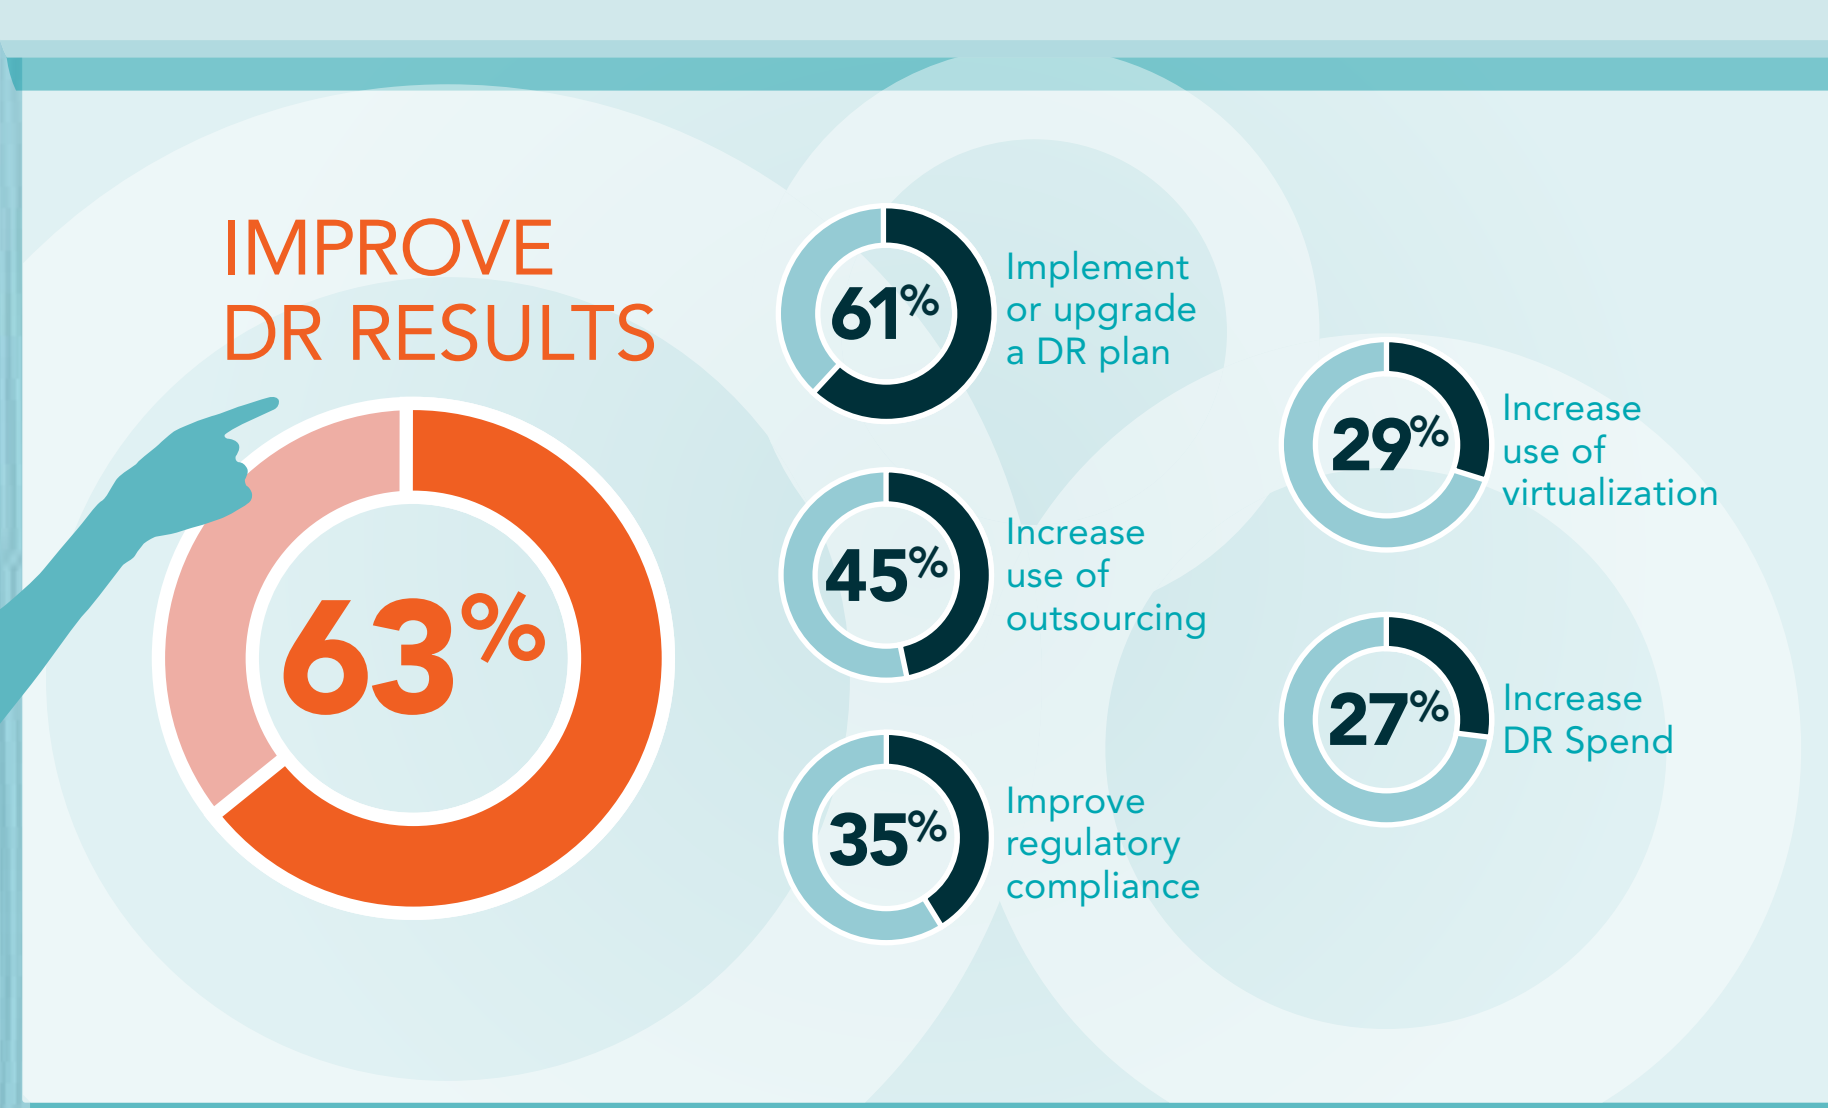

Knowing their priorities can help you prepare for the unavoidable - *before* it's too late.

Key Fortune 1000 enterprises were surveyed* about their Disaster Recovery (DR) plans. What are their highest priorities? Biggest challenges? Ideas for outsourcing? Gather around the boardroom table to see what they have planned ...

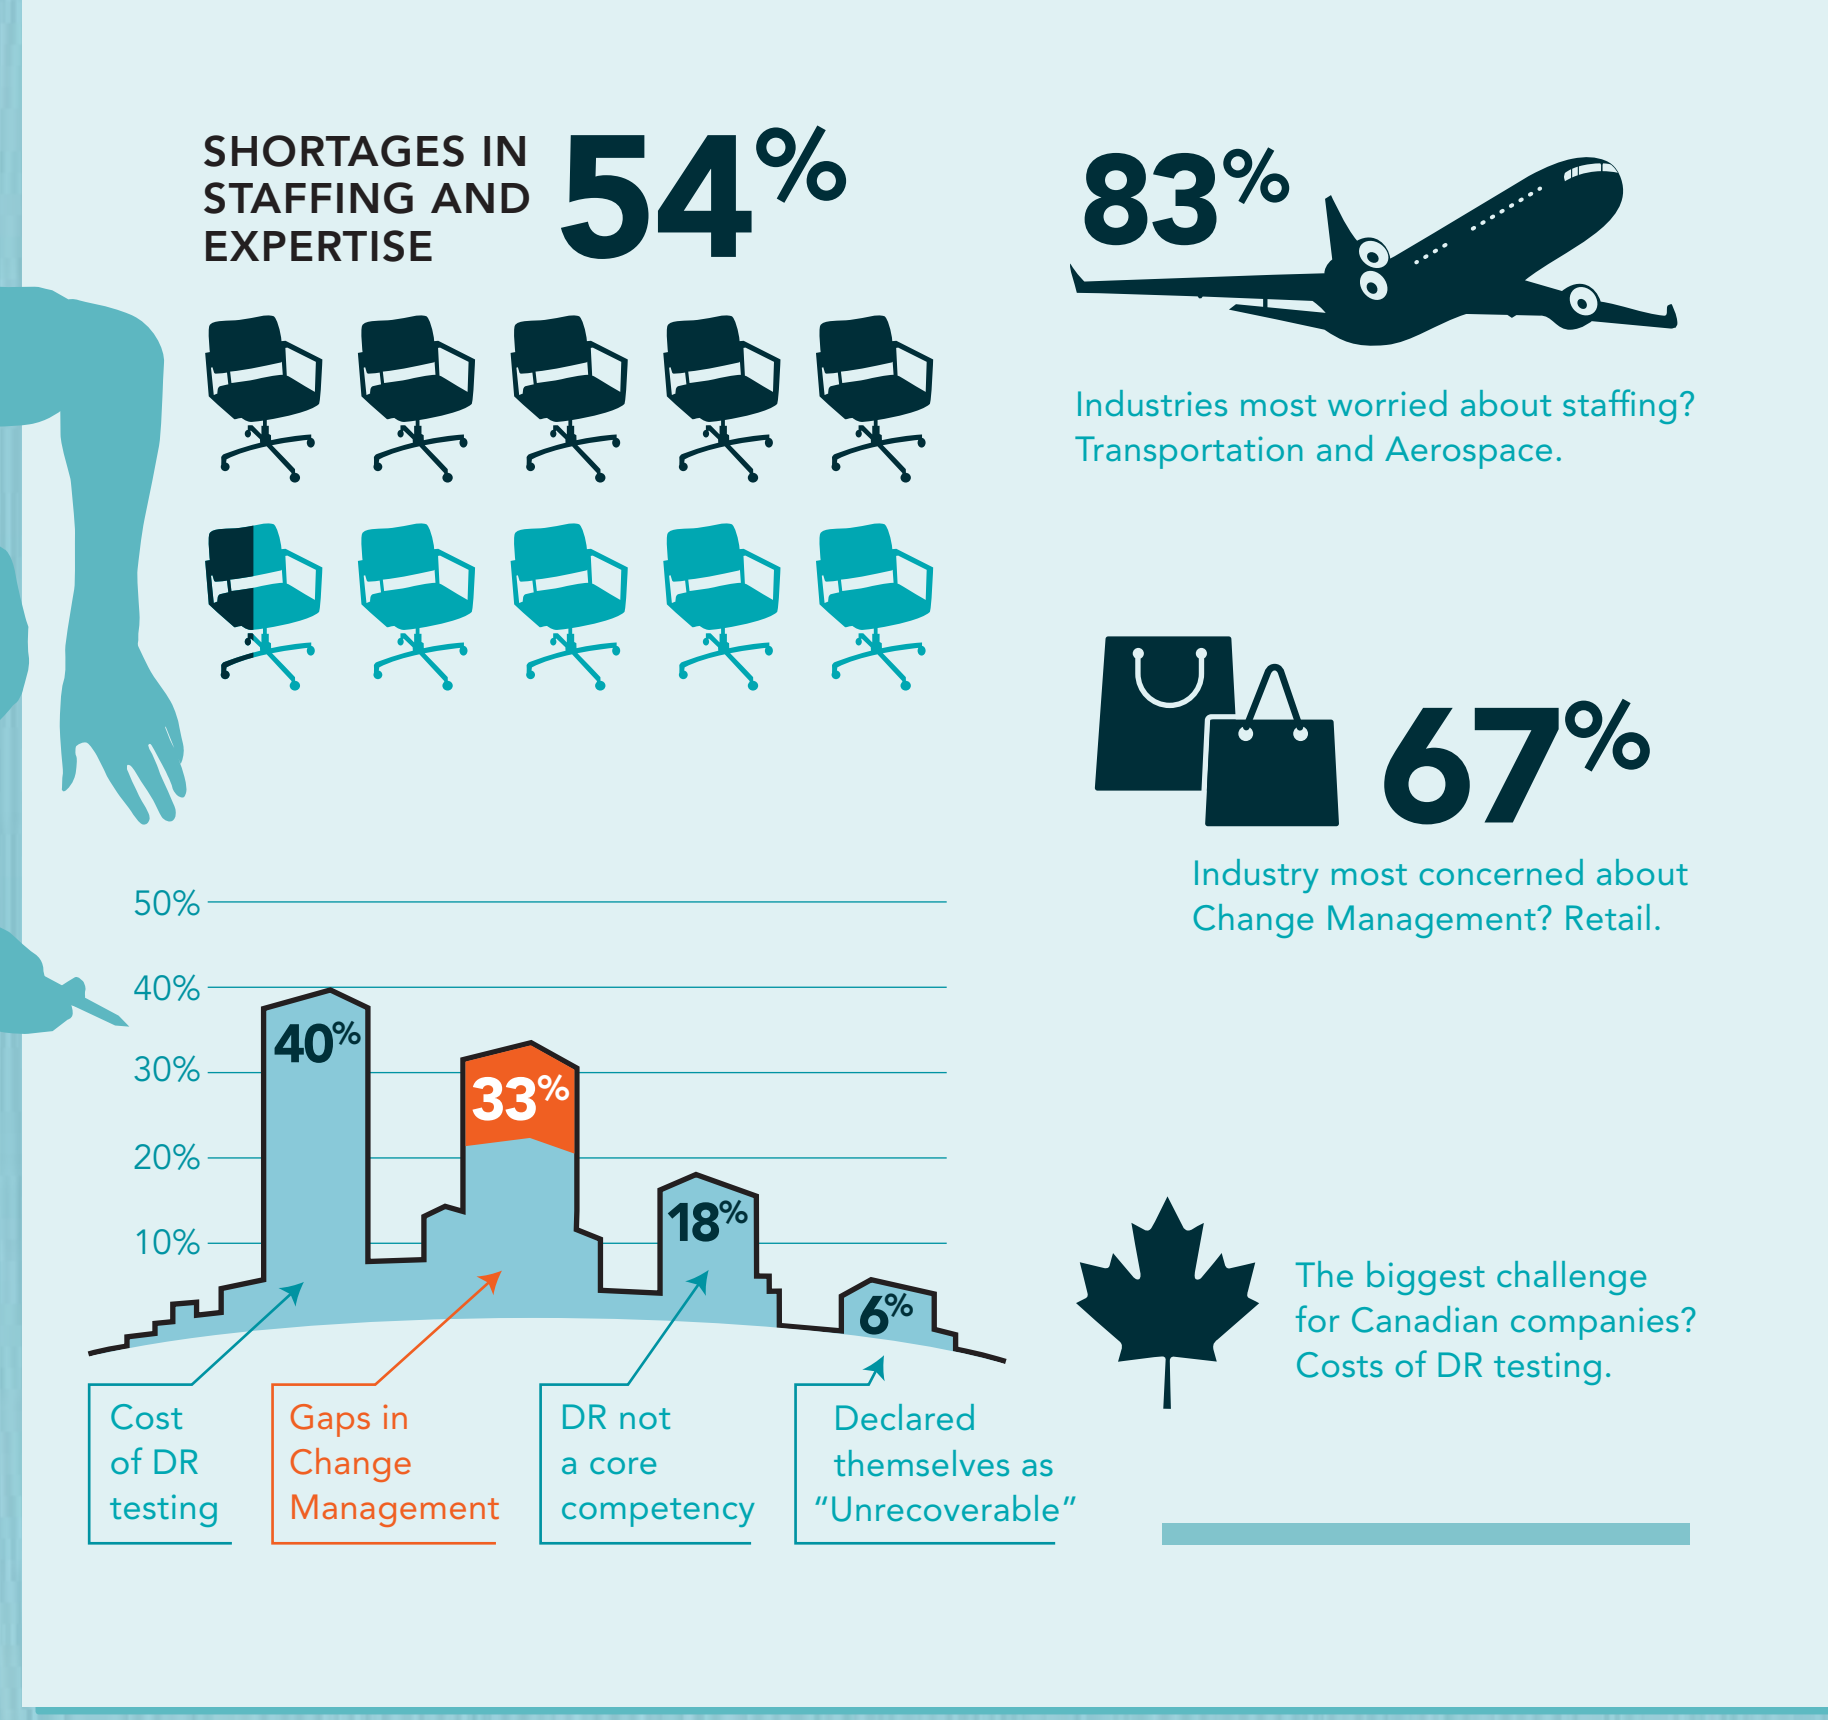

WHO TOOK THE SURVEY?

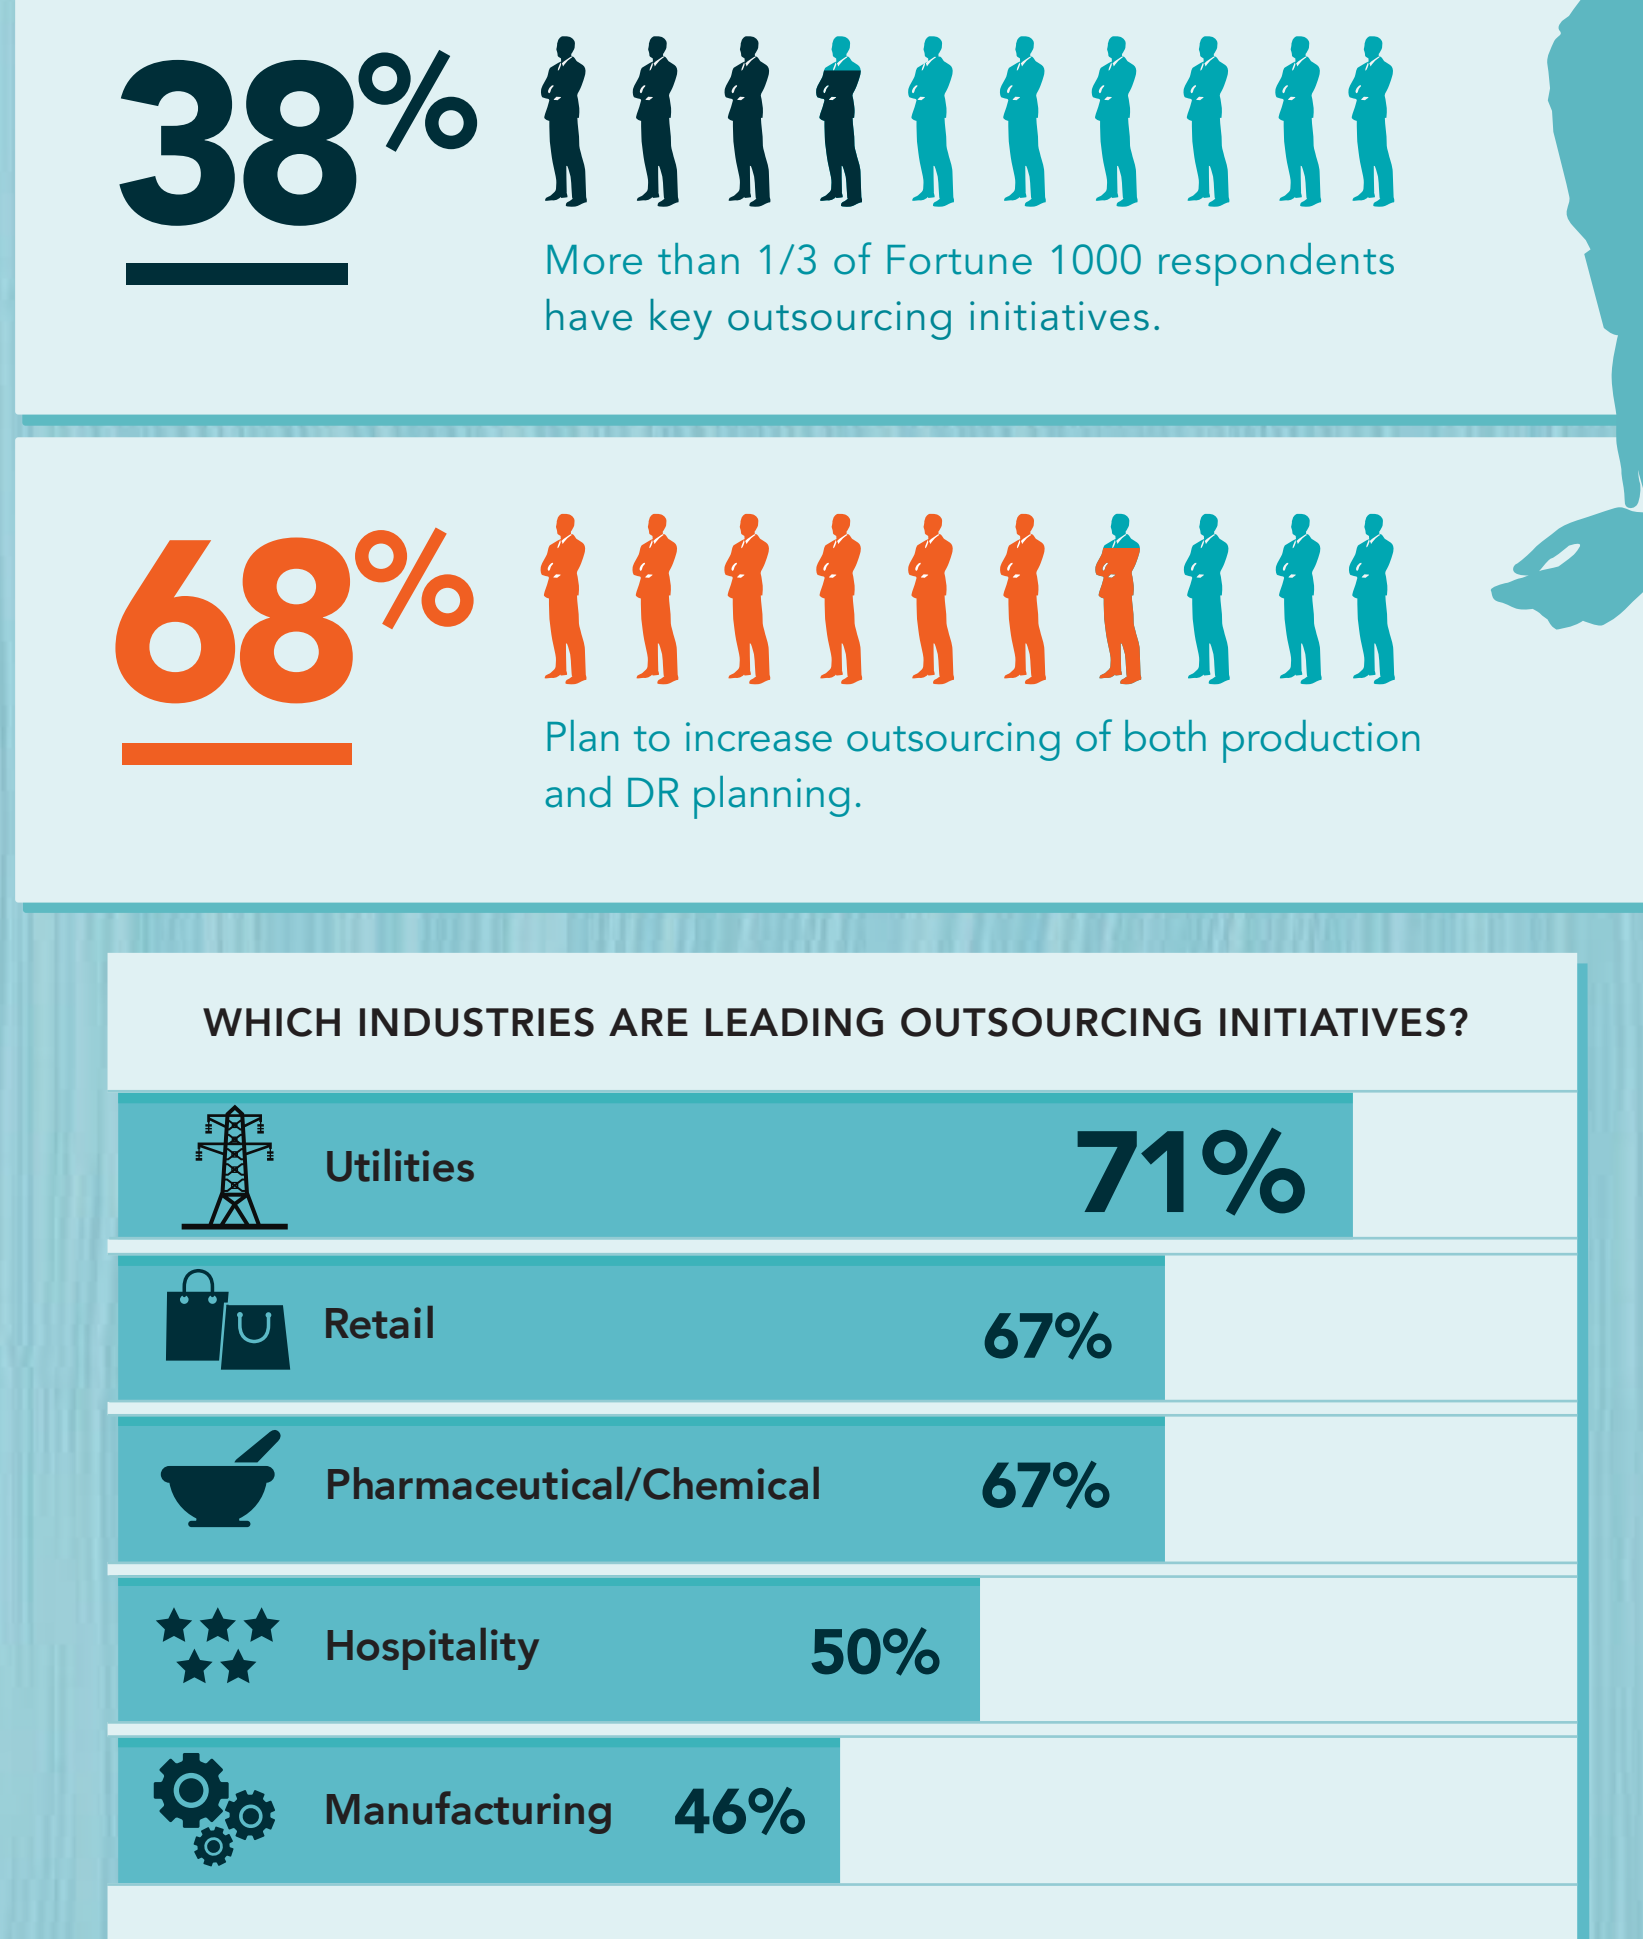

WHAT ARE THEIR HIGHEST PRIORITIES?

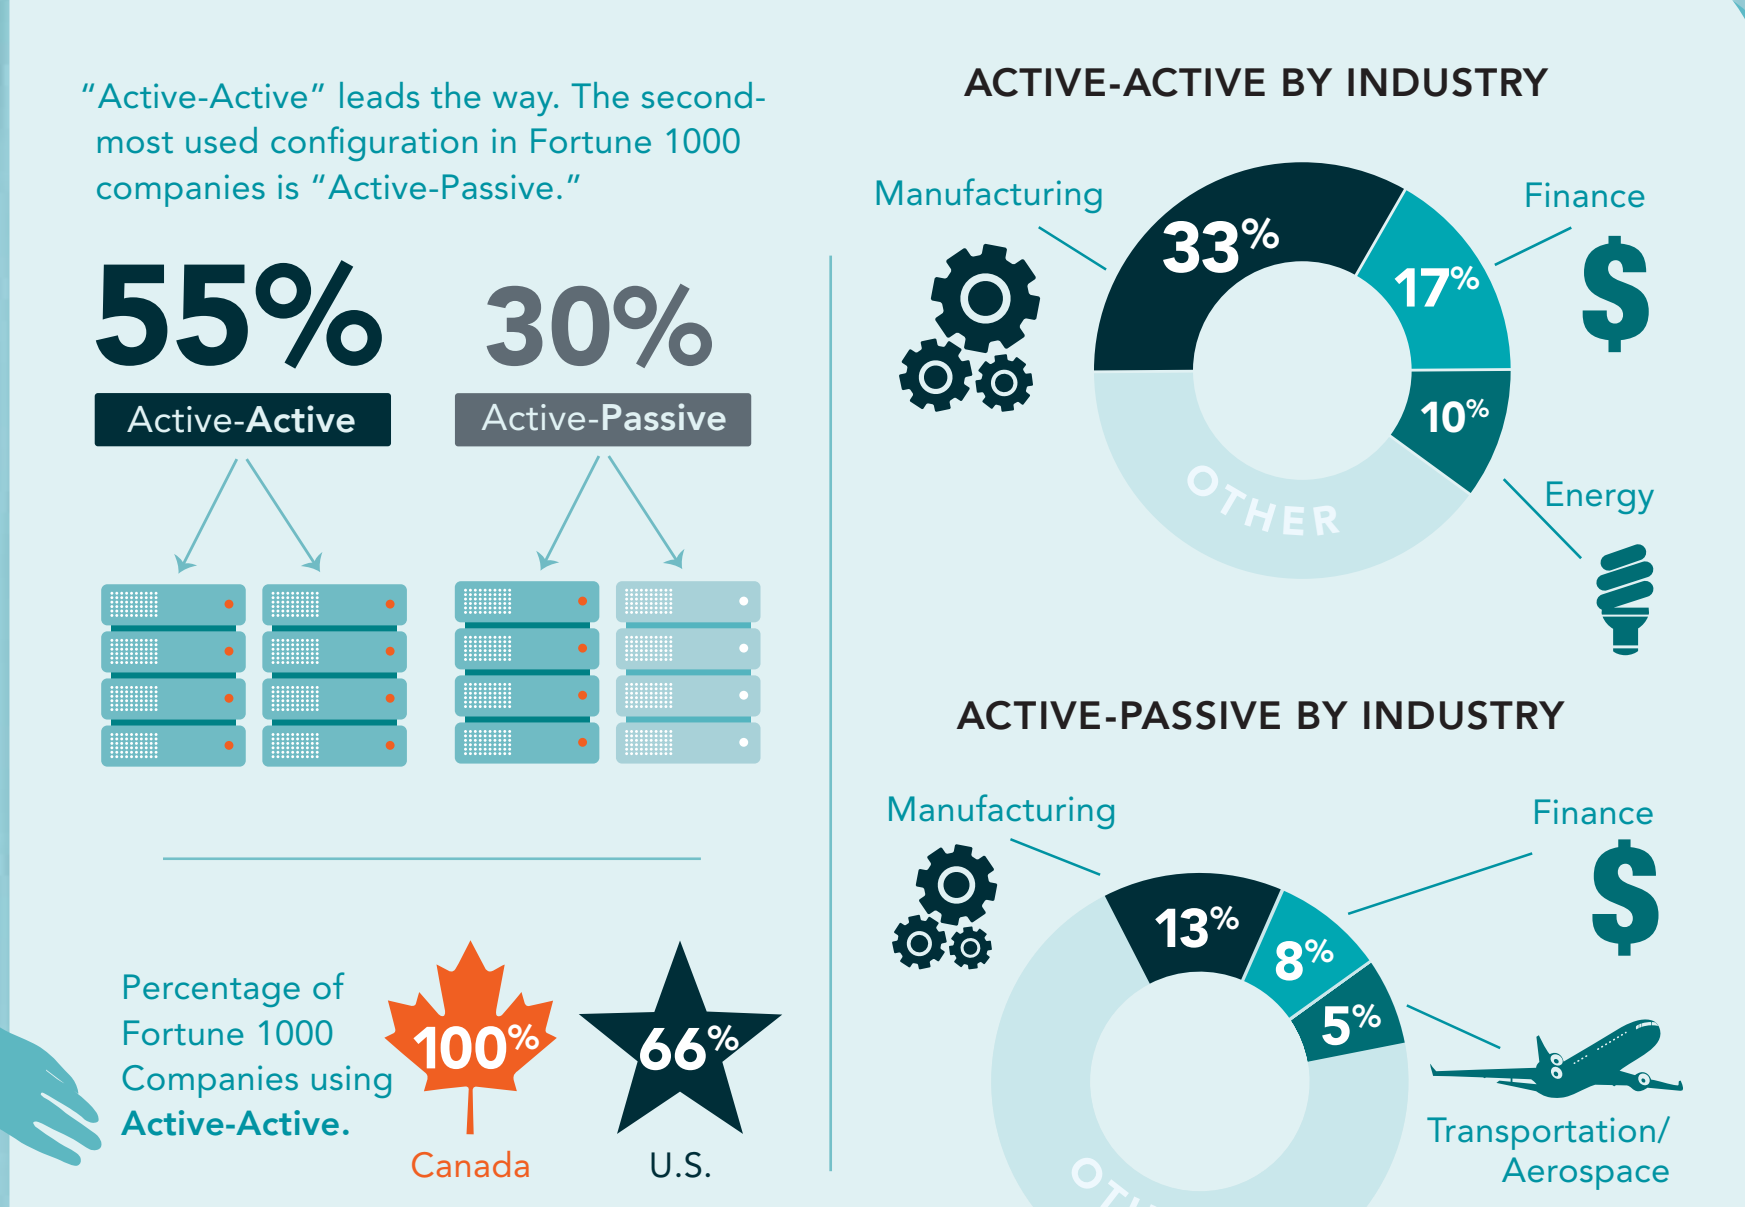

WHAT ARE THEIR BIGGEST CHALLENGES?

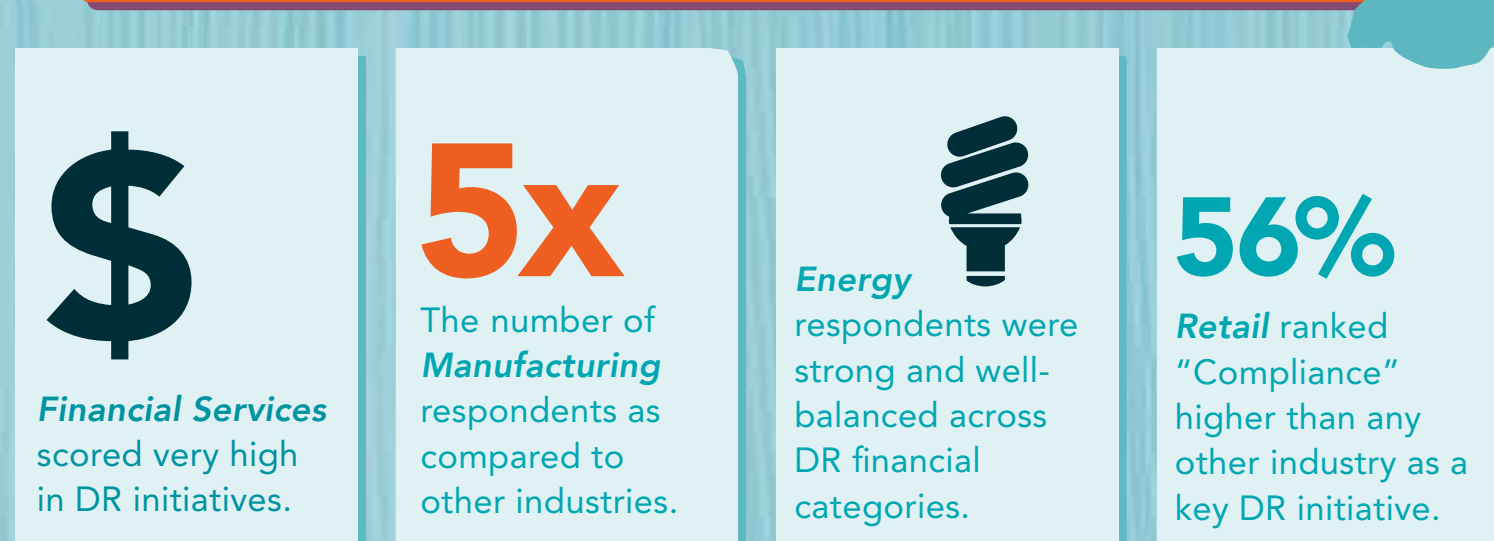

WHAT ARE THEIR OUTSOURCING PLANS?

WHAT CONFIGURATIONS ARE BEING DEPLOYED?

WHAT ARE VERTICAL MARKETS SAYING?

THAT'S WHAT YOUR PEERS THINK. NOW SEE WHAT THE EXPERTS PREDICT.

DR Planning is a top issue for many Fortune 1000 companies today. But what about tomorrow? Find out in the 2013 Prediction Paper, "The Future Causes of Trends in DR Recovery, including new threats to IT infrastructure, the impact of limited resources on Change Management, how organizations can keep one step ahead, and more."

REALITY CHECK YOUR DR INVESTMENTS.

From shortage of staff to the inability to perform change management, you need to mitigate the real risks of downtime. After all, the dollars you spend on DR need to make sense. Enter SunGard. We invented the business of DR back in 1978. And today more than 8,000 businesses and institutions across North America and Europe rely on us to help keep their people connected and minimize their exposure to real, every day threats.
